Foreword	5
Scope	13
Terms and definitions	15
1 Information required by the Light-gauge Steelwork Designer, Manufacturer and Installer	21
1.1 Allocation of design responsibilities	21
1.2 Project specification for light-gauge steelwork	21
2 Materials	25
2.1 Constituent products	25
2.2 Responsible sourcing	25
2.3 Light-gauge steel components	25
2.4 Mechanical fasteners	27
2.5 Protective treatment materials	30
2.6 Proprietary Items	30
2.7 Substitution of material or form of components	30
3 Information provided by the Light-gauge Steelwork Designer, Manufacturer and Installer	31
3.1 Information system	31
3.2 Building Information Modelling	31
3.3 General arrangement of components or assemblies	31
3.4 Foundation interface information	32
3.5 Production information for components	32
3.6 Installation information	34
3.7 Drawing or information review	34
3.8 'As erected' structure	36
4 Workmanship - general	37
4.1 Identification	37
4.2 Handling	38
4.3 Cold forming	38
4.4 Cutting	38
4.5 Dressing	39
4.6 Punching	39
4.7 Assembly	40
4.8 Inspection	40
4.9 Storage	40
4.10 Accuracy	41

5	Workmanship - welding	43
5.1	General	43
5.2	Spot welding	43
5.3	Other types of welding	43
6	Workmanship - fastening	45
6.1	Bolt and nut (and washer) assemblies	45
6.2	Thread forming screws	46
6.3	Blind rivets	47
6.4	Cartridge fired pins	47
6.5	Clinch connections	47
6.6	Special fasteners	47
7	Workmanship - accuracy of manufacture	49
7.1	General	49
7.2	Permitted deviations for Light-gauge Steel Frame components after manufacture (Δ)	50
7.3	Permitted deviations for elements of manufactured components (Δ)	51
7.4	Permitted deviations for assemblies of components (Δ)	52
7.5	Permitted deviations for lattice components (Δ)	54
8	Workmanship - installation	55
8.1	General	55
8.2	Site conditions	56
8.3	Pre-construction information	57
8.4	Stability	57
8.5	Installation loads	58
8.6	Lining and levelling	58
8.7	Site fastening	58
8.8	Certification of completion	58
9	Workmanship - accuracy of erected steelwork	59
9.1	General	59
9.2	Permitted deviations for foundations & foundation bolts (Δ)	59
9.3	Foundation inspection	61
9.4	Measurement of Light-gauge Steelwork	61
9.5	Deviations	62
9.6	Information for other contractors	62
9.7	Permitted deviations of erected light-gauge steel components (Δ)	63

10	Protective treatment - corrosion	.67
10.1	General	.67
10.2	Continuously hot-dip coated products	.67
11	Protective treatment - fire	.69
11.1	General	.69
11.2	Through-wall performance	.69
11.3	Board fire protection	.69
11.4	Intumescent coating	.70
12	Quality management	.71
12.1	Competence of Light-gauge Steelwork Designer, Manufacturer and Installer	.71
12.2	Quality system	.72
12.3	Additional inspections and tests	.73
12.4	Records	.73
12.5	Modifications	.73
	Annex A - Referenced Standards	.75
