ALL MEMBERS MEMORANDUM NO: 129/14

CODE OF PRACTICE FOR METAL DECKING AND STUD WELDING

Two of the BCSA publications Code of Practice for Metal Decking and Stud Welding 37/04 and the Guide to the Installation of Dee Decking 44/07 are now superseded by the revised publication Code of Practice for Metal Decking and Stud Welding June 2014.

This document is a code of practice for Decking Contractors and Steelwork Contractors responsible for the fixing of metal decking and for site welding of studs to steel-framed buildings. It also provides guidance to Clients, Planning Supervisors, Principal Contractors and Designers. It describes the management procedures and methods to be adopted and is intended to serve as a standard reference when drafting site and project specific method statements.

This is a free publication to members and a copy is now attached.

Peter Walker
Director of Health, Safety & Training
